

Points of Contact

Organization	Contact Information
<i>[name of organization]</i>	Name: <i>[name of primary POC]</i>
	Email: <i>[email of primary POC]</i>
	Phone: <i>[phone of primary POC]</i>
	Name: <i>[name of alternate POC]</i>
	Email: <i>[email of alternate POC]</i>
	Phone: <i>[phone of alternate POC]</i>

Activity Description

Description
<i>[briefly describe the proposed activity]</i> example: "A series of field experiments is proposed to evaluate the capabilities of a man-portable jammer to disrupt unmanned aircraft operations."

Operational Need
<i>[briefly describe the operational need for this activity]</i> example: "The low cost-to-entry and proliferation of UAS in commercial markets have resulted in an increased risk to personnel, equipment, and facilities in sensitive, secure, and operationally congested areas of operation. Efforts to counter UAS have lagged incidents of their intrusion and interference, resulting in a gap in capabilities to detect, identify, and deny them access to unauthorized areas."

Objectives
<i>[identify the objectives for this activity]</i> examples: "Engage stakeholders in port security and critical infrastructure protection to increase awareness and access to counter-UAS capabilities" "Evaluate the capabilities of a hand-held system to disrupt UAS operations and deny access to unauthorized aircraft"

Systems Under Test

Manufacturer	Nomenclature
<i>[manufacturer]</i>	<i>[system name, model, configuration]</i> <i>[URL or data sheet attached for further information]</i>

Supporting Resources

[identify the resources required to support this activity

examples might include:

- *operating personnel, representative end users*
- *target vessels, simulation devices, role players*
- *observers or media access*
- *facilities, operational footprint*
- *power, network access, instrumentation*
- *safety considerations*
- *information or operational security considerations*
- *airspace, frequency, environmental, cyber security, battery authorizations]*

Participants

[identify the organizations anticipated to participate in this activity]
